

Accolades Pressure Washing

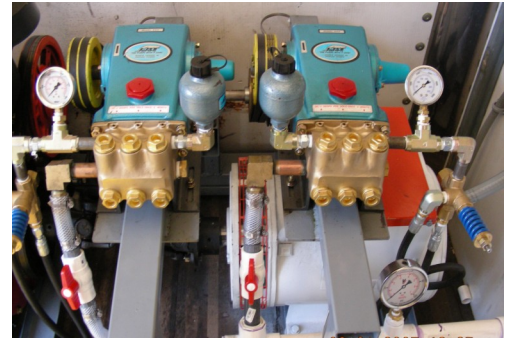

The largest mobile hot water machine in the nation.

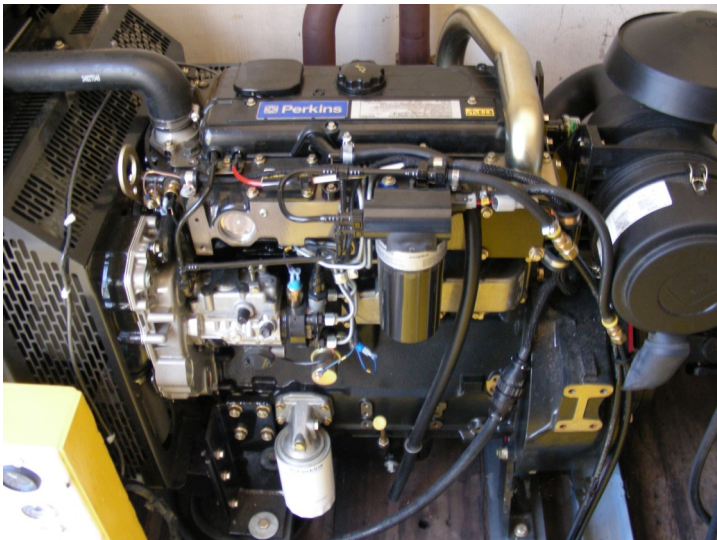

65 pounds of thrust pushes against the operator with the volume of this machine. Truck carries 310 gallons of Diesel fuel.

Two 1.4 million BTU heaters. Each one will instantly heat 10 gallons of water a minute to boiling.

Two CAT 660 pumps each producing 10 gallons a minute at 3000 PSI. Below is a 25 kW generator. (white)

Powered by a Perkins 98 hp diesel

Each component exceeds its duty requirements and was chosen for its quality and dependability.

Attention to quality and dependability is the mindset at *Accolades Pressure Washing.*
